608.7 Sale of Student Supplies and Materials

Policy

The sale of supplies and materials to students in a school shall be at fair market value. Proceeds from such sales shall be used to support student programs/activities.

Regulations

1. The sale of student supplies and materials within the school shall require the principal's approval.
2. Revenues generated by the sale of student supplies and materials shall be considered school generated funds and shall be subject to Division policies.
3. Schools shall maintain accurate records of revenues and expenditures arising from the sale of student supplies and materials.

The Board delegates to the Superintendent the authority to develop the procedures necessary to implement this policy.
