RE: Breakfast with the Board – Immanuel Christian Secondary School

Background
Lethbridge School District trustees have a long standing practice of visiting district facilities in order to better understand the operations at each site. Visits by trustees are truly appreciated by staff.

On a monthly basis trustees meet with the staff of one district site for a continental breakfast. The informal meeting provides an opportunity for staff to share highlights of their work with trustees. Additionally, trustees can share information about district initiatives and respond to questions staff members may have.

Breakfast with the Board has been scheduled at Immanuel Christian Secondary School on Wednesday, November 7, 2018 from 7:30 – 8:00 a.m. Following the breakfast, Principal Rob vanSpronsen will provide a tour of the school for trustees.

RE: Response to September Public Forum Question on Student Transportation

Background
Cindy DeJager, a parent of two students attending Chinook High School, voiced concern regarding bus transportation. Specifically, she indicated that her two sons had bus service in previous years but this changed as a result of pathways being included in the calculation of distance from residence to the school. The inclusion pathways in the transportation system’s calculation of distance is not within the jurisdiction’s control. This was a decision made by the province this spring.

Cindy DeJager indicated that she felt there was a complete lack of communication and notice regarding the removal of stops that were the outcome of distance calculations. Her sons had been picked up for the first few weeks of school, and then the stops were removed without appropriate notification to parents. Her sons went to the stop one morning (stop 9 on Chinook W7 bus route), and no bus came to pick them up.

The Transportation Coordinator checked into the situation. It was confirmed that the stop had been removed without notification to the District. Notification to the riders consisted of the driver telling students at the afternoon home drop-off that there would not be a bus the next day. Lethbridge School District No. 51 concurs that this is not appropriate notice. The Transportation Coordinator worked with the City of Lethbridge Transportation department to reinstate the stop for this year. Mrs. Shimbashi indicated that Cindy DeJager was pleased with the outcome.

The request has also been made that Lethbridge School District have at least two weeks notice prior to consideration of removal of stops on a route.

All families impacted by change of distance due to pathways, as well as families who are waitlisted as ineligible riders due to distance but are allowed to ride if there is bus capacity, are now fully informed of their temporary status as riders using a form. The signed form indicates that although a student currently has access to transportation, the distance of their residence results in the system classifying them as unfunded (ineligible rider). They will have access as long as the bus has capacity, but there is potential for them to receive notice that the bus no longer has capacity due to an increase in eligible riders. It is also made clear that ineligible
riders may not have access to bussing in subsequent years if routes and capacity changes due to eligible riders.

Currently, students can log into YouTube, Sketch Up 3D, Hangouts and other google products that teachers may find beneficial in the classroom.

• The District has been targeted heavily with cyber-attacks over the last few months through phishing emails entering into the system that have compromised user’s accounts. This has opened District computers up to malicious software. To assist in
combating the situation a safety course on how to recognize phishing emails has been offered to all employees. A number of changes have been made to our network to help protect users from such attacks.

- The department continues to work as a team on a new Network Prevention and Recovery plan. The plan addresses several preventative network architectural design components, that ensure district data and network is backed up and safe. The plan also covers a number of reactive actions, in the event of a major cyber-attack or disaster. Meetings designed to inform underwriters regarding risk management and loss control measures taken by the Alberta Urban/Metro boards to temper premium rate increases. Education sessions also held that included Cyber Security and Social Engineering Fraud, Response during a crisis, Cannabis legislation and policy.

Universal Design for Learning- Professional Learning

Karen Rancier, Ann Muldoon and Morag Asquith are now planning for the 2nd day of training for Administrators in UDL, November 1st. Many inquiry questions that Administrators are sharing in Generative Dialogue are connecting to elements of UDL. Shelley Moore returned to Lethbridge the second week of October. There was a strong representation of staff who attended this session held by SAPDC. The “DIS” department met on October 17th to discuss universal strategies to support positive behavior of students in our schools. We will be identifying learning opportunities for our Administrators in the next few months.

2018-19 DISTRICT PRIORITIES

PRIORITY ONE: ACHIEVEMENT

Literacy

Numeracy
- Secondary math teachers started the year with a bank of resources on math facts and math vocabulary that had been created last spring by members of the Secondary Math Steering Committee.
- Numeracy Lead Teacher, Jenn Giles, is in the process of meeting with all school-based admin teams to ascertain grades 4-9 teachers' needs in math instruction, resources, and Professional Learning so that she can begin residencies with teachers next week.

Curriculum Implementation
- Each school has identified one administrator who will be the instructional leader to attend workshops and meetings on our new curricula and then share the information with their teachers. These administrators will be attending a two-day workshop in October on Concept-Based curriculum.
- The Education Minister is planning to sign off on the Kindergarten through grade 4 new curricula in December 2018.
- Plans for implementing the new curricula are underway through a Provincial Implementation Working Group comprised of Alberta Education, District-based and ATA leaders.

High School Initiatives: Off-campus, dual credit, high school re-design, career exploration
- Off campus program very active over the summer with Work Experience and RAP placements.

Middle School Initiatives
- Middle School Learning Day held on October 9th was a great success. Teachers and support staff attended sessions focusing on understanding the adolescent brain and modelling of instructional strategies across the different subject areas that are engaging and relevant to adolescent learners.

Early Learning
- Kindergarten teachers are currently in the process of completing the Early Years Evaluation (EYE), which is a classroom observational assessment for kindergarten children.
- For the first time ever, we do not have any Early Education programming spaces left for children accessing Program Unit Funding (PUF) in north Lethbridge. PUF supports children having severe delays 3 years prior to Grade One entry. Typically, we try to limit each Early Education Program class to 6 children or fewer accessing PUF. Currently we have 7 - 10 children per class accessing PUF in north Lethbridge schools. Any new children identified for PUF are being directed to other schools where we offer Early Education Programming. At this point we have limited spaces left at Agnes Davidson, Nicholas Sheran and Mike Mountain Horse School with all other locations being full. For this school year we are seeing an increase of children accessing PUF in kindergarten classes on the north side as well.
- We are celebrating the opening of a unique play space at Agnes Davidson School designed specifically for younger children. This outdoor space is designed for children ages 3 - 6 and was exclusively funded by Davis Automotive Group. There is a growing need to get children outside to
provide development opportunities that are different from activities done indoors. There is significant research to support outdoor play and the benefits for children.

Mr. Clark Bosch
Board Chair
Lethbridge School District
433 - 15 Street South
Lethbridge AB T1J 2Z5

Dear Mr. Bosch:

Thank you for your February 16, 2018 letter expressing Lethbridge School District’s concerns about First Nations, Métis and Inuit education funding available to provincial school authorities, as well as the allocation methodology for the Innovation in First Nations Education (IFNE) grant program.

Alberta Education designed the IFNE grant program specifically to support First Nations students living on reserve as part of Alberta’s commitment to eliminate the achievement gap between First Nations students and all other students in Alberta. The IFNE funding allocation ensures an equitable distribution of funding for each eligible provincial school authority based on the number of on-reserve First Nations students attending their schools. Alberta Education also provides provincial school authorities with funding through the funding framework to help them meet the learning needs of self-identified First Nations, Métis and Inuit students who live off reserve and attend provincial schools.

I understand that staff from Alberta Education have met and had discussions with your staff with respect to your concerns about your school district’s overall ability to support urban First Nations, Métis and Inuit students in Lethbridge. I am pleased to inform you that in order to better support Lethbridge School District in this regard, Alberta Education will provide Lethbridge School District with a conditional grant of $125,000 to start an Urban Indigenous Pilot Project that will help provide self-identified First Nations, Métis and Inuit students with the supports they need to succeed in school. If the school district matches this funding, Alberta Education will provide an additional $125,000.

I encourage you to continue to leverage partnerships and existing resources to support First Nations, Métis and Inuit students in your school jurisdiction while we work collaboratively toward long-term solutions.

Sincerely,

David Eggen

Dear Mayor Spearman,

Re: Lethbridge School Jurisdiction Membership on City of Lethbridge Committees

On behalf of the Holy Spirit Catholic School Division Board of Trustees, I would like to thank you and City Council for your leadership within the community of Lethbridge. This Council's efforts to ensure consultation and engagement with its citizens is nothing short of exemplary.

While we are honoured to be asked to participate in both the Reconciliation Lethbridge Advisory Committee and the Community and Social Development Committee for rotating terms with our Lethbridge School District No. 51 counterparts, we ask you and Council to reconsider the practice of having educational partners serve in rotating terms. Instead, we would recommend that permanent seats be allotted to both school jurisdictions to ensure continuity of resources and information to all Lethbridge students.

Thank you in advance for your consideration of this request. Should you wish to discuss the matter further, please do not hesitate to contact our offices at your earliest convenience.

Sincerely,

Judy Lane, Board Chair

Ganley, Kathleen, Honourable
Minister of Justice and Solicitor General
Members of Executive Council
Executive Branch
424 Legislature Building
10800 - 97 Avenue
Edmonton, AB

Honourable Kathleen Ganley,

Please consider this a letter of support for the City of Lethbridge Council currently engaged in advocating for support from the Office of the Solicitor General to address what has been coined as the “Opioid Crisis” in our city. It is not our intent to delineate the impact it has had on our city in general nor call for specific kinds of support for much needed services. We would, however, like to describe the impact that it has had on our students, staff, and safety in our schools.

First, students’ emotional well-being and health has been impacted by loss of family members, displacement, and crisis that characterizes homes engulfed by addiction. The escalating numbers of individuals who are homeless and injecting in parks, playground areas and playfields has the stark reality of dangerous paraphernalia left in areas frequented by young children and youth. We have worked closely with the City of Lethbridge to ensure signage in play areas that provides contact information for needle debris pick-up, trained our caretaking staff for pick up and disposal of needles, instituted a rigorous schedule of checking play areas, sent education materials home and reinforced safety through education in our schools. While these efforts have had some impact, the safety problem of needle debris grows. Additionally, homeless individuals gravitate to secluded areas in school grounds and hidden areas around our buildings to use drugs and make themselves a place to stay for the night. Our caretaking staff have had the unfortunate task of cleaning garbage, human waste, needle debris, soiled clothing, and items such as used condoms. They do their very best to have schools a safe place for students to come to in the morning, but the task is becoming daunting. Some dangerous encounters by staff and students during the evening and weekends, as well as damage to vehicles and buildings, has resulted in the District having to hire a security company to circulate and monitor some of our buildings located close to downtown.
The unfortunate outcomes of escalating drug use and homelessness that our District has been dealing with illustrates that the issue is not going away, and in fact, is increasing. We concur with, and support, the City of Lethbridge Council’s contention that more assistance is needed in this city to deal with the problem.

Respectfully,

Clark Bosch

Mayor Chris Spearman

Dear Mayor Spearman,

Re: Representation of School Districts on City of Lethbridge Committees

On behalf of Lethbridge School District No. 51 Board of Trustees, I would like to extend our appreciation for the city’s commitment to collaboration with partners. We value involvement with the city’s committees and believe that community engagement and consultation brings important perspectives to the table. Collective engagement has the power of moving initiatives forward on a number of levels.

It is an honour to be asked to participate in both the Reconciliation Lethbridge Advisory Committee as well as the long standing Community and Social Development Committee. As you are aware, our participation is on a rotating basis with Holy Spirit Catholic School Division. While Lethbridge School District and Holy Spirit do collaborate on many educational initiatives, share ideas and engage in ongoing dialogue, it is difficult to fully participate and contribute to city committees when participation is on a rotational basis.

We would recommend that permanent seats be allotted to both school jurisdictions to ensure continuity of service to the committee and work with our students and school communities as an outcome of committee work.

Thank-you in advance for your consideration of this request. Please do not hesitate to contact our offices should you have any questions regarding this request.

Respectfully,
