Early Education Programs for 3 and 4 year olds

About Our Programs

Our Early Education Programs are child centred, play-based and developmentally appropriate, providing a rich early learning environment for your child to have fun and to grow in.

Programs are taught by experienced early childhood educators, supported by a team of skilled assistants, a Learning Support Teacher, Speech Language Pathologist and an Early Childhood Co-ordinator. Families also have access to Making Connections family workers.

Staff are especially trained to assist children with their speech and language development as well as their fine and gross motor planning. Our programs provide early literacy and numeracy experiences through play all in an atmosphere of care and respect for every child.

Children with assessed developmental needs may be eligible for full funding.

Please call our Early Childhood Co-ordinator Isabelle Plomp at 403-380-5291 for more information.
