

Lethbridge Transit used a new system to print the time tables for the School Bus Route Maps this year and has identified a small issue in the map creation process and are working to fix the issue. This issue does not occur in all maps and can be identified by a difference in the number of stops on the map portion compared to the number of stops on the corresponding time table. As per the example below, please note the bus stop locations are correct. In some cases the stop number on the time tables does not match the map stop number. All times noted on the time table are correct. Lethbridge Transit thanks you for your patience as we work to correct the time tables.

STOP	DESCRIPTION	AM	PM	FRI
1	SCENIC DR N	8:02AM
