

## ATTENDING THE FAIR

### Registration

Specific details such as the date, time, and location of the fair will be provided upon registration.

Attendees must be referred through specific community supports. Registration typically fills by the end of June.

If you register but are unable to attend the fair, supplies and services cannot be guaranteed at the beginning of the school year.

### On The Day...

Families do not have to bring anything to the fair. If you registered, we will simply check your name at the door.

Parents, guardians, and caregivers are welcome to attend the fair on behalf of their student.

Families can access onsite resources based on availability, including:

- School supplies
- Hair cuts
- Clothing vouchers
- Other resources as available

The fair is structured to reduce line-ups as much as possible, but there will still be possible wait times for services, so please dress for the weather and come prepared.

### About The Supplies

Supplies are provided from generalized lists and registrants will still need to check their individual lists to know what supplies will need to be purchased after the fair.

Supplies vary from year to year and some materials may not be available at every fair.

Supplies provided at the fair offer a foundation of what is needed to successfully start school. Ready, Set, Go! will provide your student with a head start to the year.

Shoe services vary from year to year.

Supplies depend upon donations received and can therefore not be guaranteed.
