

## **300.1 Administration Guiding Principles**

### **Policy**

The Board may, under the Education Act, appoint any person or designate a teacher to an administrative, supervisory or consultative position. The Education Act further provides that the Board may employ other non-teaching employees that the Board considers necessary for its operation.

The Board expects that those charged with formal leadership responsibilities will:

- Consult with others in setting expectations, vision, targets and plans to meet the Board's mission and vision; Work with others to facilitate continuous improvement of performance of students and staff;
- Ensure decision making is an ongoing collaborative process which facilitates involvement of those most affected by or responsible for the decision;
- Utilize teamwork, consultation and guidance strategies in supporting others to meet the goals of the Division;
- Hold accountable those who have decision making responsibilities;
- Evaluate personnel and program performance in order to assess the degree and quality of vision attainment and to plan for performance growth;
- Embrace change and personal growth as vehicles for enhancing student learning, professional performance, leadership and system improvement;
- Promote socially responsible and respectful behavior among students and staff.

### **Regulations**

1. Decisions made by Division administrators, in the course of their duties, shall be consistent with Division policy, the Education Act and other applicable provincial and federal statutes and regulations.

- 1.1 In the absence of policy, administrative decisions shall be consistent with Board philosophy and principles.

The Board delegates to the Superintendent the authority to develop the procedures necessary to implement this policy.
