

Visual Strategies in the Classroom

## See What I Mean!

Presented by Robyn Henderson, SLP  
October 15, 2020

---

---

---

---

---

---

---

## Do we need them?

- What were you doing last Wednesday at 2pm?  
Be exact
- What are your plans next Saturday night?
- How do you know that?

---

---

---

---

---

---

---

## Long Story Shortz video

<https://www.youtube.com/watch?v=s1eZ7h6u3JM&t=14s>

---

---

---

---

---

---

---

## What are visual supports

- Anything that we see that enhances communication
  - Body language
  - Natural environmental cues
  - Traditional tools
  - Specialized / individualized tools

---

---

---

---

---

---

---

## Who can benefit?

- All students can benefit
- We all use them!
- Helps enhance understanding
- In particular:
  - Processing difficulties
  - Language delays
  - Autism & other delays / disorders
  - Attention challenges
  - English Language Learners
  - Self-regulation

---

---

---

---

---

---

---

## Why do we use visuals?

- To communicate
- Improve understanding
- Simplify information
- Understand auditory information
- Assist with processing time
- Makes verbal information visual
- Helps with focus and attention
- Reduces distraction, block out background noise
- Universally understood

---

---

---

---

---

---

---

## More reasons to use visuals...

- Supports sequencing and time skills
- Lesson anxiety
- Reduce challenging behaviors
- Independent transitions
- Increase motivation (know what's coming next)
- Incorporate social interaction

---

---

---

---

---

---

---

## What visuals do you use?

- Your phone
- Calendar
- List of "things to do"
- Magazine picture of a new hairstyle?
- Grocery list
- Recipes / cookbooks
- Reminder notes
- Menus
- Ikea "easy to follow" instructions
- Daytimer
- Public washrooms signs
- Road signs
- Google maps

---

---

---

---

---

---

---

## When do we use them?

- ALL THE TIME
- Even when you think a child has achieved mastery. Visuals still supports them
- Do you only use your phone when you're anxious or having trouble?

---

---

---

---

---

---

---

Many people use a few visual tools

Few people use many

---

---

---

---

---

---

---

---

Imagine.....

- You are on a European tour and you will be visiting 10 cities in only 7 days. You realize that your travel agent did not give you a schedule or itinerary.
- How would you feel?
- Which cities will you visit?
- What attractions will you see?
- Where will you eat?
- How will you get there?

---

---

---

---

---

---

---

---

- This is how these students feel daily.
- This is the reason students need a ritual and routine.
- What would you do if you didn't have your:
  - Phone
  - Daytimer
  - Email
  - Calendar
  - Sticky notes
  - Shopping list

---

---

---

---

---

---

---

---

Our goal is to:

- Maximize their independence
- Teach skills to communicate effectively, efficiently, universally, and be socially acceptable
- Teach compensatory strategies to increase participation & independence
- Modify environments to maximize learning & take advantage of teaching opportunities for learning

---

---

---

---

---

---

---

---

Getting started

- Give students the information...
 

“They want to know  
In a form  
They understand”

*Linda Hodgdon – Solving Behavior Problems in Autism*

---

---

---

---

---

---

---

---

Types of Visual Tools

1. Tools that give information
2. Give Directions
3. Organize the environment
4. Communicate between environments

---

---

---

---

---

---

---

---

## 1. Tools to Give information

- Group schedules
- Individual schedules
- Mini-schedules
- Calendars
- Choice boards
- “No/Stop” – not allowed
- Social stories

---

---

---

---

---

---

---

---

## Why?

- Clarify where an activity begins and ends
- Provides specific information to students
- Concrete support that can be referred to regularly as needed
- Provide support through transitions

---

---

---

---

---

---

---

---

## Why use schedules cont'd

- Provides structure and routine
- Helps a student see the logic and order in their day
- Serves as an aid to discuss and share daily events
- Improves vocabulary and language skills
- Teaches sequence (before/after, first/then)
- Supports transitions & predictability

---

---

---

---

---

---

---

---

## General Strategies for Visual Schedules

- Arrange in top/bottom or left/right
- Minimum of 2 items (in sequence not isolation)
- Consider the length of schedule (not too long)
  - Break into smaller schedules
- Consider one activity per page
- Include a “finished” or “all done” method
  - Remove item, check it off, show an ending

---

---

---

---

---

---

---

## When making a schedule

- Match the student's ability level
- Easy to understand by the student and others
  - Check – does your spouse understand it?
- Easy to use by the student
- Easy to create
- Model for the student how to use it
- Repetition, repetition, repetition

---

---

---

---

---

---

---

## Now use it!

- Use it consistently
- Part of the daily routine
- Predicts what will happen
- Refer to for transitions
- Refer to it to keep the child engaged and focused
- Model the use of the schedule for the child
- Should indicate the ending of the activity

---

---

---

---

---

---

---

## Where do you keep them?

- Wear them
  - Lanyard
  - Aprons
  - Satchel
- Easily accessible
- Near the activity

---

---

---

---

---

---

---

---

## Classroom visuals – for everyone!

- Classroom routine
- Indicate choices
- Indicate change
- Helpful for visitors
- Helpful for teachers too!

---

---

---

---

---

---

---

---

Classroom schedule with a task box

---

---

---

---

---

---

---

---

Daily Schedule : **Wednesday**

8:45	Play time	
9:00	Circle time	
9:20	Center time	
10:00	Library	
10:30	Bathroom	
10:45	Snack time	
11:00	Gym time	
11:35	Circle time	
11:50	Home	

---

---

---

---

---

---

---

---

**Schedule**

calendar

play

books

snack

recess

computer

art

clean room

circle time

home

Visual Schedule

Classroom schedules

8:00	Music
8:30	Library
9:00	Computer
9:30	Gym
10:15	Art
10:45	Math
11:15	Spelling
12:00	Lunch
12:30	Recess
1:00	Reading
1:30	Writing
2:00	History
2:30	Science
3:00	Dismissal

---

---

---

---

---

---

---

---

Mini Schedule ideas

---

---

---

---

---

---

---

---

---

---

---

---

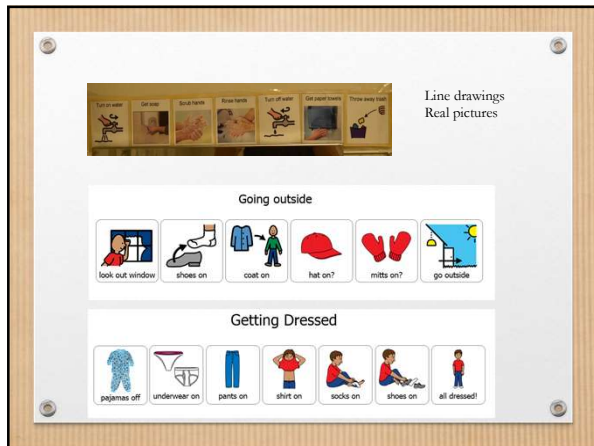

---

---

---

---

---

---

---

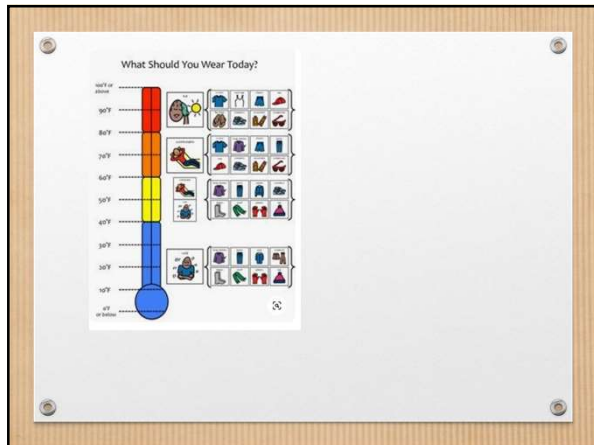

---

---

---

---

---

---

---

---

---

---

---

---

---

### Individual schedule

- Creates independence
- Predictability
- Incorporate change
- Routine

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### Sample schedule books

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

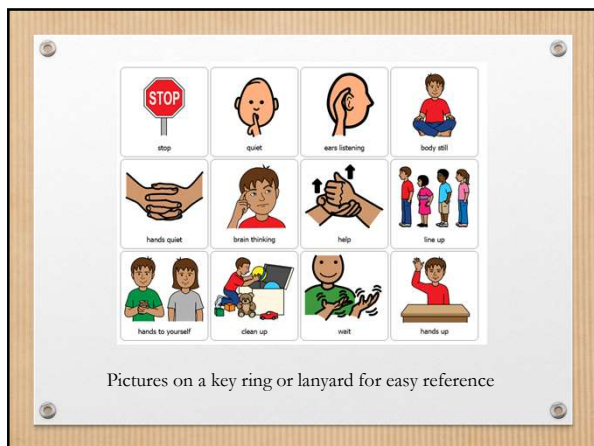

---

---

---

---

---

### Visual calendars

- Large or small group
- Individual

---

---

---

---

---

---

---

---

### Getting dressed visual – in action!

---

---

---

---

---

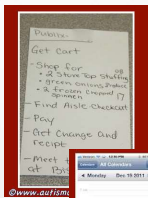

---

---

---

### Simple & functional

- Whiteboards
- Note paper
- Phone notes / calendar

---

---

---

---

---

---

---

---

### First-then boards

first      then

**First      Then**

---

---

---

---

---

---

---

---

first      then

first      next      then

- Targets sequencing
- Concepts: first/then, before/after, first/next
- Non-preferred before pre-ferred
- Keep it simple

---

---

---

---

---

---

---

---

### Visual timers

Time Timers

Timer apps

- Makes time visible
- Holds us accountable to "in one minute"
- Warns of upcoming change

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

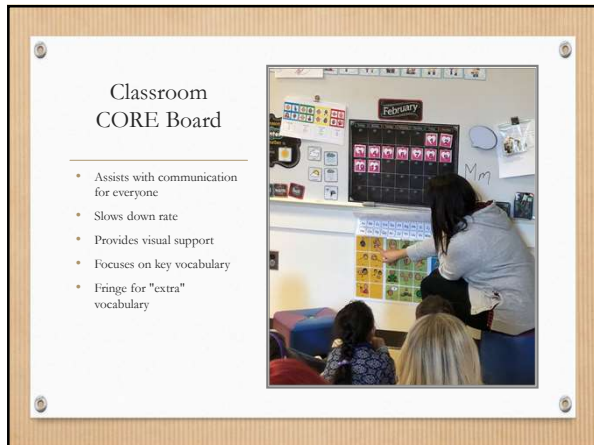

---

---

---

---

---

---

---

---

---

---

---

---

---

## Individual use of CORE boards

- Makes language visible
- Targets vocabulary
- Build sentences
- Slows rate of understanding and use to help with processing
- Allows individualization

---

---

---

---

---

---

---

---

## Small group use

- Discussion between peers
- Asking questions
- Answering questions
- Comparing answers

---

---

---

---

---

---

---

---

## PODD Books

- Pragmatic Organization Dynamic Display
- Support communication
- Between communication partners

---

---

---

---

---

---

---

---

## Social Stories

- Created by Carol Gray
- Describe:
  - the details of a situation (where, who, when, what)
  - what to try to do in the situation,
  - how other people feel in the situation (perspective) and
  - what values or opinions are relevant to the situation.

---

---

---

---

---

---

---

## Suggestions:

- Use words like "I will try to..."
- Use words like: sometimes, usually
- Use positive language and statements
- Use concrete, simple language
- Write your story at the level of the child

---

---

---

---

---

---

---

## Formula:

- 0-1 directive sentences (telling the child what to try to do)
- 2-5 statements that describe the situation, others' perspectives and values

---

---

---

---

---

---

---

### Consider:

- Your audience, who is it for?
- Level of comprehension and expression
- Format: pictures, logos photographs, objects, written words
- How much information to include
- BE SIMPLE, BE SPECIFIC
- Involve the student in the process
- Starting with a question

---

---

---

---

---

---

---

---

### Caution:

- Don't add too much information
- Don't use too many symbols, pictures or words
- Don't give up, it takes time
- Don't use language that is too complicated
- Remember to review it during times when the student is regulated
- Ask for help!

---

---

---

---

---

---

---

---

### 2. Tools to Give Directions

- Classroom rules
- Individual rules
- Recipe / Directions
- Task organizers

---

---

---

---

---

---

---

---

# Road signs... give directions!

---

---

---

---

---

---

---

---

# Classroom rules

## Our Class Rules

**Kind Words**  
...don't name-call, threaten, threaten, or...

**Listening Ears**  
...listen to the teacher...

**Safe Body**  
...don't hit or kick...

"Be Good"

## Classroom rules

- Keep your hands to yourself
- NO running
- Listen to the teacher
- Stay in the classroom

Chair on floor
Quiet mouth
Raise your hand
Listen to the teacher
Keep working

---

---

---

---

---

---

---

---

# Give Me Five

- Eyes are watching.
- Ears are listening.
- Lips are zipped.
- Hands are still.
- Feet are quiet.

---

---

---

---

---

---

---

---

## Whole Body Listening

[https://www.pinterest.com/pin/264023596881969013/?pic\\_v2=1a3177QZR](https://www.pinterest.com/pin/264023596881969013/?pic_v2=1a3177QZR)

<http://preschoolwondersblog.blogspot.com/2013/06/classroom-management-and-freebie.html>

---

---

---

---

---

---

---

---

## Playing a Game Rules

1. Have fun

2. Take turns

3. Be kind

4. Be patient and wait

---

---

---

---

---

---

---

---

## Visuals Recipes / Instructions

- Small or Large Group
- Sequencing
- Helps with order of the instruction
- Provides reference if student doesn't understand

---

---

---

---

---

---

---

---

Make it visible & accessible  
 - On the fridge  
 - Beside the activity  
 - Not on the shelf!

©www.autismclassroomnews.com

---

---

---

---

---

---

---

---

Visual recipes – Free!

<http://teachinglearnerswithmultipleneeds.blogspot.com/2011/01/updated-free-visual-recipes.html>

---

---

---

---

---

---

---

---

How many of these do you use yourself?

**What I Need To Do After School**  
 1. Hang Up Coat and Put Shoes Away  
 2. Empty Backpack  
 • Give Mom or Dad any important papers  
 • Place homework on the table  
 • Clean out lunch box and place on counter  
 • Place water bottle on counter  
 3. Hang Up Backpack  
 4. Wash Hands  
 5. Have a Snack  
 • Tell Mom or Dad about your day  
 6. Relax  
 • Play outside  
 • Read a book, play a game  
 • Do a craft, color, draw, paint  
 • Complete time task Mom or Dad first  
 7. Do Homework  
 • Gather supplies needed for homework  
 • Ask Mom or Dad check homework when done  
 • Place in Homework folder and into backpack  
 8. Pack backpack for tomorrow  
 • Make sure any notes or important papers are packed

---

---

---

---

---

---

---

---

## Choice Boards

Use words, pictures, objects

- Snack
  - Who to work with
  - Which job you want to do
  - Which song to sing
  - Which assignment to start with
  - Who gets a turn
- \*\*\*Provide an "opt out" – none of those

---

---

---

---

---

---

---

---

## Choice Board

- Student chose which song he wanted – and handed it to the teacher

---

---

---

---

---

---

---

---

## HELPERS TODAY

John	Turn on the lights
Abby	Water the plants
Adam	Snack Helper
Taylor	Calendar helper
Matt	Feed the fish

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

## In general choice boards:

- Provide an opportunity request / comment
- Broaden the range of choices (add in preferred and non-preferred activities)
- Helps the student make a variety of selections
- Improve communication effectiveness
- Gives a way to indicate something is not available

---

---

---

---

---

---

---

---

## Visualize emotions

---

---

---

---

---

---

---

---

## Self Regulation Visuals

<http://chapelhillsnippets.blogspot.com/2012/02/self-regulation-scale.html>

<https://www.teacherspayteachers.com/FreeDownload/Reading-Strategies-Bookmarks-2353244>

---

---

---

---

---

---

---

---

Voice Volume Scale

5	Shouting	loud	yell
4	Change voice - Loud	cat	talking voice
3	Voice like - Talking	mouse	whisper
2	Normal voice - Talking	fish	quiet
1	Whisper		

Vocal Volume in the classroom

---

---

---

---

---

---

---

---

<http://ateacherswonderland.blogspot.com/2012/09/evaluations.html?m=1>

Student Self-Reflection

---

---

---

---

---

---

---

---

Body Break Visuals

- Self regulating
- Independence
- Easily accessible
- Located where they are used

\*photo credit to Galbraith Early Education Program

---

---

---

---

---

---

---

---

<http://rockandteach.blogspot.com/2012/08/monday-made-it-part-4.html?m=1>

Mouth & Ears on a teacher's lanyard  
 (Executive Functioning Skill to inhibit)

---

---

---

---

---

---

---

---

### 3. Tools to Organize the Environment

- Label the environment
- Label personal spaces
- Item location
- Job charts
- Where to stand / where to walk
- Which washroom to use (where to find the key)

---

---

---

---

---

---

---

---

### Why?

- Creates a sense of stability & predictability
- Increase independence
- Encourage a student's responsibility
- Supports everyone to be prepared & organized

---

---

---

---

---

---

---

---

## Classroom organization

- Makes it visual
- Words & Pictures
- Helpful for students and adults
- Monitor clutter / Distractions in the environment

---

---

---

---

---

---

---

## Job charts

---

---

---

---

---

---

---

## 4. Tools to “Bridge” Environments

- Today at school
- Communication books
- Garbage Book – plant a conversation seed
- Journals

---

---

---

---

---

---

---

## Why?

- Places responsibility on student to share information
  - With parents
  - With multiple communication partners
- Improve teacher – parent communication
- Supports effective communication
- Improve interactions
  - Conversation – ask/answer/ comment
- Highlight special activities
- Summarize the day's events
- Helps with comprehension

---

---

---

---

---

---

---

---

## At school today I...

water table 	house center 	sandbox 	paint 
listening center 	playdough 	book 	blocks 
puzzle 	math center 	number center 	building 
Comments:			

---

---

---

---

---

---

---

---

My Day at School

I played with

lego	water table	crafts	play dough	action figures
house	game	blocks	painting	slide
books	puzzles	trains	cars & trucks	

I played with my friend

In gym we played

scooters	game	balls	
----------	------	-------	--

For snack I had

--	--	--	--

My favorite part was

--	--	--

School Home comments:

---

---

---

---

**Today I learned a lot of stuff**

\_\_\_\_\_

**Teacher's Name** \_\_\_\_\_

**It's all about communication**

---

---

---

---

---

---

---

---

## Visual - Do's

- Consider your audience – who is it for?
- Consider level of comprehension & expression
- Consider your “medium” – pictures / words / b&w drawings, logos, objects
- Format – portability, size, location
- How many steps (amount of information) to include

---

---

---

---

---

---

---

## Do's cont'd

- Visualize it in your head
- Use universally understood pictures or words
- Be simple, be specific
- Think through the tool first
- Involve student in the process if possible
- Try a rough draft
- Start small, one project at a time

---

---

---

---

---

---

---

## Visual - Don'ts

- Don't add too much information
- Don't use too many symbols
- Don't use language that is too complex (consider age, ability levels)
- Don't give up!
- Don't forget to use it
- Don't put it away when it is working

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

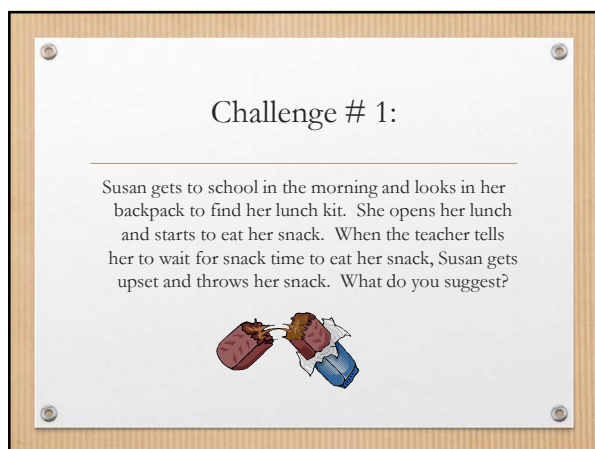

---

---

---

---

---

---

---

---

---

---

---

---

---

---

## Challenge #2

- Cindy gets off the bus at school, walks inside and goes to her locker. She just stands there.
- The teacher is waiting for her to come to class with her books but Cindy seems lost in space beside her locker.
- What could be done to help Cindy?

---

---

---

---

---

---

---

## Possible Solution

---

---

---

---

---

---

---

## Accommodations for older students

- Less pictures / more words (if able)
- Individualized and not as “visible”
- Digital supports
  - Cell phones
  - iPads etc.
- Circle of peers – less adult intervention
- Socially acceptable

---

---

---

---

---

---

---

For example:

Schedule for Monday		
Time	Class	What to bring
8:15	Home room (101)	Green folder that says "Home Room"
9:10	Math (room 101)	Blue folder that says "MATH" pencil
10:45	Spine	Go to library or cafeteria
10:55	English (room 200)	Blue folder that says "English" writing tools unless "You Write"
11:15	Spine of the girl	Backpack with shoes, water and lunch
12:00	Lunch (cafeteria)	Remember to bring your bag with things in the back
